(a) ~~Time for~~ dated 23 April 1958  
 (b) ~~Time for~~ dated 25 April 1958

2. Paragraph 3 of reference (b) recommends that [redacted] be instructed to take the position that Subject's mental condition is such that he should be institutionalized at the earliest possible date...."

2. Since reference (b) was written, [redacted] has made a good deal of progress. According to the psychiatrist (Dr. [redacted]) who examined him on 23 and 24 May, he is "mentally much better (and) no longer actively delusional." Dr. [redacted] further states that "he [redacted] is not amenable to a mental hospital as he is at present." He goes on to state that [redacted] is "sufficiently improved (so) that if left unattended there is a minimal risk of activating his psychosis by use of Glut." He further states that Glut can probably be given without his knowledge.

3. A group similar to the one mentioned in reference (b) heard the foregoing conclusions at a meeting on 26 May. It recommended unanimously that the question of ~~reconsidering~~ <sup>reconsidering</sup> the ~~case~~ <sup>case</sup> be raised again with your Committee.

6. The object of the exercise would be to determine:

2. Whether or not [redacted] is on [redacted] medication. A polygraph test administered recently shows that he is definitely disturbed then questioned in the following areas:

(1) on his personal responsibility for the decision to defect.  
His reactions show that he may have been dispatched rather than  
ending voluntarily.

(2) on his name. His response shows that [REDACTED] may not be his true name.

(3) on his wife. His reactions show that he may believe his wife to have had connections while she was in England.

b. Whether he would answer truthfully and in detail a limited number (5 - 10) of key questions on which he has knowledge, based on his experiences in [redacted], but on which he is giving evasive Communist-line responses at the moment.
